

# THANKFUL THURSDAY

# NORMA FRAZIER: PUTTING PATIENTS FIRST

The Ebenezer Medical Outreach family would like to recognize Norma Frazier for her (almost) 19 years of service! Norma has worked in pharmaceuticals for 49 years as a patient assistant and pharmacy tech. One of the most special things about Norma is her passion for helping others, and her desire to go above and beyond for her patients. When asked about working at the clinic's pharmacy, Norma said, "I love everything about my job, I love my coworkers, and I love my patients." Not only does she know each of her patients by name, but she is invested in their livelihood. Out of everyone at EMO, Norma truly is \*the\* person to go to for information about services offered and helpful tips.

*"I come to work every day to help people. It keeps me going."*

**NORMA FRAZIER**

When looking to the future, Norma sees Ebenezer Medical Outreach reaching more patients and helping the community thrive. She hopes that we will be a constant figure in the Fairfield West community and be able to continue serving patients unable to receive care from other facilities. Norma is thankful to make a difference in the community, but not as thankful as we are for her! We also celebrated her birthday on Tuesday, so wish her a happy belated!

*many thanks*
