

# THANKFUL THURSDAY

# GETTING TO KNOW CHERYL HENDERSON

The EMO staff would like to show our appreciation for Cheryl Henderson! Cheryl was our longest-serving board member until she recently stepped down. For Cheryl, serving on the Board of Directors for Ebenezer Medical Outreach was never a bother or obligation, but an honor and privilege. Cheryl is a passionate person and her interests range from helping others at her law firm to ensuring health equity is met in the community. Cheryl has been around since the clinic was first founded, as an outreach of the Ebenezer United Methodist Church. She attended the church, which is how she became part of the board. When asked about the clinic's early years, Cheryl was happy to dive into the history. She stated, "The clinic was founded to address the needs of the Fairfield West community before the opioid epidemic began. It was meant to provide basic healthcare services to those under-served and uninsured."

*"We are here to serve. Get involved and help others."*

**CHERYL HENDERSON, ESQ.**

Going forward, Cheryl hopes that Ebenezer Medical Outreach continues to focus on community outreach, follow the mission statement, and continue to make an impact. She also believes that it is important to recruit more specialized physicians and ensure the members of our board all have the same goal: to be impactful. Cheryl ended our conversation saying, "Life is short, so be impactful. We are here to serve. Get involved and help others." Ebenezer Medical Outreach's values and mission are evident in Cheryl. Thank you, Cheryl, for the part you've played in making the clinic what it is today. Your talents and efforts have helped us achieve excellence in our clinic.
